INDEX TO VOLUME 32

AUTHORS INDEX*

A

ADAMS, FORREST H., Omphalocele, 304

ADAMS, JOHN M. (WITH KELLEY, VINCENT C.), Blood chemical and immunologic effects of adrenal cortical extract in children, 282

AGUSTSSON, HREIDAR (WITH TOOMEY, JOHN A., AND BERNO, JACK C.), Does pertussis activate tuberculosis? 260

ALDRICH, C. A. (WITH WANNING, PATRICIA, AND WEINFELD, GUSTAVE F.), Correspondence regarding self-demand feeding, 109

ALFORD, KENNETH M. (WITH ARNOLD, DOUGLAS P.), A new technique for replacement transfusion in the treatment of hemolytic disease of the newborn infant, 113

ANDERSON, KATHERINE (WITH DANIEL, R. DAVID), Septicemia due to Escherichia coli, 81

ANDERSON, WILLIAM S. (WITH BISCHOFF, HAROLD W., RECINOS, ADRIAN, JR., AND RICE, E. CLARENCE), Alkaligenes fecalis bacteremia and meningitis, 558

ANNUNZIATO, DAVID (WITH DOYLE, WILLIAM J.), Erythroblastosis fetalis in a premature infant from a mother with sickle cell anemia, 203

ARENA, JAY M. (WITH MARTIN, DAVID W.), Relationship of race to the incidence of diphtheria and to Schick, tuberculin, and Wassermann tests in hospitalized children, 530

ARNOLD, DOUGLAS P., AND ALFORD, KENNETH M., A new technique for replacement transfusion in the treatment of hemolytic disease of the newborn infant, 113

B

BAKER, C. R. F. (WITH HARVIN, JOHN R., AND HASTINGS, W. D., JR.), Tetanus neonatorum, 561

BAKWIN, HARRY, Thumb- and finger-sucking in children, 99

—, Benzedrine in behavior disorders of children, 215

—, (WITH BAKWIN, RUTH MORRIS), Accident proneness, 749

—, Management of the child with mental deficiency, 611

—, Specific reading disability, 465

—, The child with asthma, 320

BAKWIN, RUTH MORRIS, AND BAKWIN, HARRY, Accident proneness, 749

—, Management of the child with mental deficiency, 611

—, Specific reading disability, 465

—, The child with asthma, 320

BARKER, LESLIE PAXTON, An evaluation of the penicillin treatment in early congenital syphilis, 516

BARNES, HAROLD L. (WITH FRIES, JOSEPH H., AND BORNE, STANFORD), Varicelliform eruption of Kaposi due to vaccinia virus complicating atopic eczema, 532

BEAL, CAROLYN K., Body size and growth rate of children with diabetes mellitus, 170

BERMAN, SIDNEY, Adjustment of parents to children in the home, 66

BERNO, JACK C. (WITH TOOMEY, JOHN A., AND AGUSTSSON, HREIDAR), Does pertussis activate tuberculosis? 260

BERNSTEIN, HASKELL E. (WITH POTTER, EDITH L.), Hematologic studies on children of Rh-negative women compared to those of Rh-positive women, 246

BIGGS, ALFRED D., AND RIGBY, RALPH G., Nontuberculous pulmonary calcification, 393

BISCHOFF, HAROLD W., RECINOS, ADRIAN, JR., ANDERSON, WILLIAM S., AND RICE, E. CLARENCE, Alkaligenes fecalis bacteremia and meningitis, 558

BIVINGS, LEE, AND LEWIS, GEORGE, Acrodynia: a new treatment with BAL, 63

BLATTNER, RUSSELL J., Diarrhea of the Newborn infant, 220

—, Experimental serum carditis and rheumatic fever, 757

—, Heart arrhythmias in children, 105

—, Intravenous administration of fat, 324

—, Megaloblastic anemia, 473

—, Streptomycin, 619

BORNE, STANFORD (WITH FRIES, JOSEPH H., AND BARNES, HAROLD L.), Varicelliform eruption of Kaposi due to vaccinia virus complicating atopic eczema, 532

BOYETTE, DAN P., AND LONDON, ARTHUR H., JR., Subluxation of the head of the radius—"nursemaid's elbow," 278

*January, pp. 1-112; February, pp. 113-226; March, pp. 227-332; April, pp. 333-478; May, pp. 479-628; June, pp. 629-764.

BRADLOW, PAUL A., AND SCHLESS, ROBERT A., An unusual eruptive fever involving the skin and mucous membranes, 293
BRAINERD, HENRY, The treatment of pertussis and pneumonia complicating pertussis. The role of hyperimmune gamma globulin and sulfadiazine, 30
BRIDGE, EDWARD M. (WITH LIVINGSTON, SAMUEL, AND KAJDI, LASLO), The use of benzedrine and dexedrine sulfate in the treatment of epilepsy, 490
BROCK, W. M. (WITH HARRIS, EDWARD H., MCCULLOUGH, GEORGE C., AND STONE, J. J.), Congenital tuberculosis, 311
BROWN, EDWARD E., Petechiae in children: incidence, seasonal variations, and etiology, 55
BURFORD, THOMAS H. (WITH CARSON, MERL J.), Diagnosis and surgical treatment of certain congenital cardiovascular anomalies, 495

C

CARSON, MERL J., AND BURFORD, THOMAS H., Diagnosis and surgical treatment of certain congenital cardiovascular anomalies, 495
CHASIS, HERBERT (WITH WEST, JOSEPH R., AND SMITH, HOMER W.), Glomerular filtration rate, effective renal blood flow, and maximal tubular excretory capacity in infancy, 10
CLARK, BENJAMIN P., AND GIPSON, AMOS C., Polycystic disease of the kidneys in a newborn infant, 718
COHEN, PHILIP, AND SCHNECK, HERMAN, Effect of influenza virus vaccination in infants and children, with antibody studies, 161
—, Natural incidence of influenza antibodies in children of different age groups, 154
COHEN, ROBERT, Silver nitrate stencil staining for identification of newborn infants, 193
CONE, ROSS B., A review of Boeck's sarcoid with analysis of twelve cases occurring in children, 629
COPPRIDGE, WILLIAM M., AND ROBERTS, LOUIS C., Torsion of the appendix testis, 184

D

DANIEL, R. DAVID, AND ANDERSON, KATHERINE, Septicemia due to Escherichia coli, 81
DEFALCO, RALPH J. (WITH MASUCCI, PETER, AND GOLD, HERMAN), Restoration of diphtheria immunity without injections (Bousfield's method), 35
DORFF, GEORGE B., Constitutional statural overgrowth and increased lower body segment with normal sexual development in a family of four, 670
DOYLE, WILLIAM J., AND ANNUNZIATO, DAVID, Erythroblastosis fetalis in a premature infant from a mother with sickle cell anemia, 203
DREIZEN, SAMUEL (WITH PYLE, S. IDELL, MANN, ARVIN W., KELLY, HARRIET J., MACY, ICIE G., AND SPIES, TOM D.), A substitute for skeletal age (Todd) for clinical use: the Red Graph method, 125
—, (WITH MANN, ARVIN W., PYLE, S. IDELL, AND SPIES, TOM D.), The Red Graph and the Wetzel Grid as methods of determining the symmetry of status and progress during growth, 137

E

ENGELHARD, C. F., Candida albicans infection in a child, 404
EPSTEIN, NATHAN, The heart in normal infants and children. Incidence of precordial systolic murmurs and fluoroscopic and electrocardiographic studies, 39

F

FASHENA, GLADYS J. (WITH LOVE, FRANCES M.), Eosinophilic granuloma of bone and Hand-Schüller-Christian disease, 46
FRANKLIN, H. CHARLES, Bacterial flora in eyes of newborn infants during first forty hours of life, 251
FRIES, JOSEPH H., BORNE, STANFORD, AND BARNES, HAROLD L., Varicelliform eruption of Kaposi due to vaccinia virus complicating atopic eczema, 532
FUNKHOUSER, WILLIAM LITTELL, The use of serum gamma globulin antibodies to control chicken pox in a convalescent hospital for children, 257

G

GIBEL, HARRY (WITH LITVAK, ABRAHAM M., ROSENTHAL, SEYMOUR E., AND ROSENBLATT, PHILIP), Cerebral complications in pertussis, 357
GIN, SHAN-YAH, Physical growth of Chinese infants, 275
GIPSON, AMOS C. (WITH CLARK, BENJAMIN P.), Polycystic disease of the kidneys in a newborn infant, 708
GOLD, HERMAN (WITH MASUCCI, PETER, AND DEFALCO, RALPH J.), Restoration of diphtheria immunity without injections (Bousfield's method), 35
GORDON, HYMAN (WITH HOFFMAN, WILLIAM S., AND HOFER, JESSE W.), The treatment of acute respiratory infections in children with orally administered, unbuffered penicillin solutions, 1

H

HAGEAGE, CHARLES, AND HORGAN, JOSEPH, Congenital hemolytic icterus, four generations, 288
HALL, ROWENA SIDBURY (WITH SIDBURY, J. BUREN), Homologous serum hepatitis, 420

HAMMOND, MORTON L. (WITH HUGHES, WILSON E.), Sclerema neonatorum, 676
HARDING, FLOYD E., Sublingual methyl testosterone for boyhood emotional, physical, and genital immaturity, 351
HARRIS, EDWARD A., MCCULLOUGH, GEORGE C., STONE, J. J., AND BROCK, W. M., Congenital tuberculosis, 311
HART, ALFRED P., Letter regarding exsanguination transfusion in a newborn infant in 1925, 760
HARVIN, JOHN R., HASTINGS, W. D., JR., AND BAKER, C. R. F., Tetanus neonatorum, 561
HASTINGS, W. D., JR. (WITH HARVIN, JOHN R., AND BAKER, C. R. F.), Tetanus neonatorum, 561
HENDRICK, J. G., Hemangioma of the liver causing death in a newborn infant, 309
HOFER, JESSE W. (WITH HOFFMAN, WILLIAM S., AND GORDON, HYMAN), The treatment of acute respiratory infections in children with orally administered, unbuffered penicillin solutions, 1
HOFFMAN, WILLIAM S., HOFER, JESSE W., AND GORDON, HYMAN, The treatment of acute respiratory infections in children with orally administered, unbuffered penicillin solutions, 1
HOLOWACH, JEAN, Chronic lymphoid leucemia in children, 84
HORGAN, JOSEPH (WITH HAGEAGE, CHARLES), Congenital hemolytic ieterus, four generations, 288
HOUSTON, LT. GILBERT, AND STEIGER, CAPT. W. A., Pulmonary calcification in twins, 706
HUGHES, WILSON E., AND HAMMOND, MORTON L., Sclerema neonatorum, 676
HUTTER, CHARLES G., JR., New concepts of osteomyelitis in the newborn infant, 522

J

JAUDON, JOSEPH C., Further observations concerning hypofunction of the adrenals during early life, 641

K

KAJDI, LASLO (WITH LIVINGSTON, SAMUEL, AND BRIDGE, EDWARD M.), The use of benzedrine and dexedrine sulfate in the treatment of epilepsy, 490
KELLEY, VINCENT C., AND ADAMS, JOHN M., Blood chemical and immunologic effects of adrenal cortical extract in children, 282
KELLY, HARRIET J. (WITH PYLE, S. IDELL, MANN, ARVIN W., DREIZEN, SAMUEL, MACY, ICIE, G., AND SPIES, TOM D.), A substitute for skeletal age (Todd) for clinical use: the Red Graph method, 125
KENDIG, EDWIN L., JR., Do erythroblastotic newborn infants destroy Rh-negative red blood cells? 151
KOMETANI, JOHN (WITH PLATOU, R. V., AND WOODY, NORMAN C.), Pediatric deaths in a large general hospital, 380
KUNSTADTER, RALPH H., Congenital goiter causing death of a newborn infant, 711

L

LANDE, LOTTIE, Clinical signs and development of survivors of kernicterus due to Rh sensitization, 693
LAPIN, JOSEPH H., Prophylaxis of upper respiratory infections in children treated with oral penicillin, 119
LESTER, CHARLES W. (WITH SPAIN, DAVID M.), Time element in the development of irreversible bronchiectasis, 415
LEVITT, JACOB, AND TARAN, LEO M., Some of the problems in the education of rheumatic children, 553
LEWIS, GEORGE (WITH BIVINGS, LEE), Acrodynia: a new treatment with BAL, 63
LITVAK, ABRAHAM M., GIBEL, HARRY, ROSENTHAL, SEYMOUR E., AND ROSENBLATT, PHILIP, Cerebral complications in pertussis, 357
LIVINGSTON, SAMUEL, KAJDI, LASLO, AND BRIDGE, EDWARD M., The use of benzedrine and dexedrine sulfate in the treatment of epilepsy, 490
LONDON, ARTHUR H., JR. (WITH BOYETTE, DAN P.), Subluxation of the head of the radius—"nursemaid's elbow," 278
LOVE, FRANCES M., AND FASHENA, GLADYS J., Eosinophilic granuloma of bone and Hand-Schüller-Christian disease, 46

M

MACY, ICIE G. (WITH PYLE, S. IDELL, MANN, ARVIN W., DREIZEN, SAMUEL, KELLY, HARRIET J., AND SPIES, TOM D.), A substitute for skeletal age (Todd) for clinical use: the Red Graph method, 125
MANN, ARVIN W., DREIZEN, SAMUEL, PYLE, S. IDELL, AND SPIES, TOM D., The Red Graph and the Wetzel Grid as methods of determining the symmetry of status and progress during growth, 137
—, (WITH PYLE, S. IDELL, DREIZEN, SAMUEL, KELLY, HARRIET J., MACY, ICIE G., AND SPIES, TOM D.), A substitute for skeletal age (Todd) for clinical use: the Red Graph method, 125
MARCK, ABRAHAM (WITH WASCH, MILTON G.), The radiographic appearance of the gastrointestinal tract during the first day of life, 479
MARTIN, DAVID W., AND ARENA, JAY M., Relationship of race to the incidence of diphtheria and to Schick, tuberculin, and Wassermann tests in hospitalized children, 530

MASUCCI, PETER, GOLD, HERMAN, AND DEFALCO, RALPH J., Restoration of diphtheria immunity without injections (Bousfield's method), 35
McCULLOUGH, GEORGE C. (WITH HARRIS, EDWARD A., STONE, J. J., AND BROCK, W. M.), Congenital tuberculosis, 311
McENERY, E. T., AND PENHALE, K. W., Macrocheilia from labial gland hyperplasia treated by plastic surgery, 715
McKHANN, CHARLES F. (WITH SPECTOR, SAMUEL), Respiratory acidosis and alkalosis in children, 227
MEYER, HANS, Lack of correlation between possible Rh incompatibility and Mongolian idiocy, 564
MONCRIEFF, ALAN, National health service in Great Britain, 753

SUBJECT INDEX*

A

Accident proneness (Bakwin and Bakwin), 749
Acidosis and alkalosis, respiratory, in children (Spector and McKhann), 227
Acrodynia: new treatment with BAL (Bivings and Lewis), 63
Actinomycosis with pulmonary involvement, conference on (Children's Hospital, Washington, D. C.), 454
Adjustment of parents to children in the home (Berman), 66
Adrenal cortical extract, blood chemical and immunologic effects of, in children (Kelley and Adams), 282
Adrenals, further observations concerning hypofunction of the, during early life (Jaudon), 641
Alkalosis and acidosis, respiratory, in children (Spector and McKhann), 227
Allergy, food. IV. Function and clinical application of the rotary diversified diet (Rinkel), 266
Anemia, megaloblastic (Blattner), 473
  in infancy (Siebenthal), 188
  sickle cell, erythroblastosis fetalis in premature infant from mother with (Doyle and Annunziato), 203
  treatment of the, of infancy and childhood (Smith), 721
Antibodies, influenza, natural incidence of, in children of different age groups (Cohen and Schneck), 154
Aorta, coarctation of the, conference on (St. Louis Children's Hospital), 604
  new anomaly of. Left aortic arch with right descending aorta (Paul), 19
Arrhythmias, heart, in children (Blattner), 105
Asthma, the child with (Bakwin and Bakwin), 320

B

Bacteremia, alkaligenes fecalis, and meningitis (Bischoff, et al.), 558
Bacterial flora in eyes of newborn infants during first forty hours of life (Franklin), 251
BAL, new treatment of acrodynia with (Bivings and Lewis), 63
Behavior disorders of children, benzedrine in (Bakwin), 215
Benzedrine and dexedrine sulfate in the treatment of epilepsy, the use of (Livingston, et al.), 490
  in behavior disorders of children (Bakwin), 215
Blood chemical and immunologic effects of adrenal cortical extract in children (Kelley and Adams), 282
Body size and growth rate of children with diabetes mellitus (Beal), 170
Boeck's sarcoid with analysis of twelve cases occurring in children, a review of (Cone), 629
Bone, eosinophilic granuloma of, and Hand-Schüller-Christian disease (Love and Fashena), 46
Book Reviews:
  Acrodynia infantil (Garrahan and Sampayo), 224
  Baby care from birth to birthday (Lawler), 624
  Cardiopatias congenitas de la infancia (Gonzalez), 625
  Diseases of children's eyes (Doggart), 763
  Endocrine therapy in general practice (Sevringhaus), 623
  Give your child a chance (Turner), 763
  Hearing and deafness. A guide for laymen (Davis, ed.), 624
  How to help your child grow up (Patri), 763
  Illustrative electrocardiography (Burstein), 624
  Lecciones de pediatria (Instituo de Pediatria y Puericultura), 224
  Melk (DeHaas and Meulemans), 763
  Nursing in modern society (Chayer), 623
  Pediatria. XVI. Curso de perfeccionamiento, 1945 (Morquio), 477
  Sexual behavior in the human male (Kinsey, Pomeroy, and Martin), 476
  Study of pediatric nursing (National League of Nursing Education), 224
  The foot and ankle: their injuries, diseases, deformities, and disabilities (Lewin), 477
  The gifted child grows up (Terman and Oden), 330
  The pathology of nutritional disease (Fallis, Jr.), 625
  The Rh factor in the clinic and laboratory (Hill and Daméshek, ed.), 477
  Traité de diététique du nourrisson (Lust), 331
British medical situation, 217
  national health service (Moncrieff), 753
Bronchiectasis, clinic on (Children's Hospital of Michigan), 87
  time element in the development of irreversible (Spain and Lester), 415

C

Calcification, pulmonary, in twins (Houston and Steiger), 706
  nontuberculous (Biggs and Rigby), 393
Candida albicans infection in a child (Engelhard), 404

*January, pp. 1-112; February, pp. 113-226; March, pp. 227-332; April, pp. 333-478; May, pp. 479-628; June, pp. 629-764.

Cardiovascular anomalies, diagnosis and surgical treatment of certain congenital (Carson and Burford), 495
Carditis, experimental serum, and rheumatic fever (Blattner), 757
Cerebral complications in pertussis (Litvak, et al.), 357
Chicken pox, the use of serum gamma globulin antibodies to control, in a convalescent hospital for children (Funkhouser), 257
Chronic lymphoid leucemia in children (Holowach), 84
Clinical Conferences:
Children's Hospital of Michigan, August, 1947: clinic on bronchiectasis, 87; polyostotic fibrous dysplasia, 91; Ritter's disease, 95
Children's Hospital, Washington, D. C.: conference on infantile cortical hyperostoses, 441; pericarditis with effusion, 449; actinomycosis with pulmonary involvement, 454; acute regional enteritis, 460
Duke Hospital, Sept. 18, 1947: clinic on poisoning, 207
Hospital for Sick Children, Toronto: clinicopathologic conference on dysendocrinism, 739
St. Louis Children's Hospital: clinic on neuroblastoma, 580; tuberous sclerosis, 589; empyema, 594; hemophilia, 599; coarctation of the aorta, 604
Coarctation of the aorta, clinic on (St. Louis Children's Hospital), 604
Comments on Current Literature:
diarrhea of the newborn infant, 220
experimental serum carditis and rheumatic fever, 757
heart arrhythmias in children, 105
intravenous administration of fat, 324
megaloblastic anemia, 473
streptomycin, 619
Community health program, responsibility of pediatrician in (Thelander), 102
Congenital cardiac disease. New anomaly of aorta. Left aortic arch with right descending aorta (Paul), 19
cardiovascular anomalies, diagnosis and surgical treatment of certain (Carson and Burford), 495
goiter causing death of a newborn infant (Kunstadter), 711
hemolytic icterus, four generations of (Hageage and Horgan), 288
hypertrophic stenosis of duodenum (Patton), 301
tuberculosis (Harris, et al.), 311
Correspondence. Exsanguination transfusion in a newborn infant in 1925 (Hart), 760
on self-demand feeding (Wanning, Weinfeld, and Aldrich), 107
Cortical hyperostoses, conference on infantile (Children's Hospital, Washington, D. C.), 441

D

Dexedrine and benzedrine sulfate in the treatment of epilepsy, the use of (Livingston, Kajdi, and Bridge), 490
Diabetes insipidus. Amelioration following tonsillectomy (Winter), 78
mellitus, body size and growth rate of children with (Beal), 170
Diarrhea of newborn infant (Blattner), 220
Diphtheria immunity, restoration of, without injections (Bousfield's method) (Masucci, et al.), 35
relationship of race to the incidence of, and to Schick, tuberculin, and Wassermann tests in hospitalized children (Martin and Arena), 530
Duodenum, congenital hypertrophic stenosis of (Patton), 301
Dysendocrinism, clinicopathologic conference on (Hospital for Sick Children, Toronto), 739

E

Eczema, atopic, varicelliform eruption of Kaposi due to vaccinia virus complicating (Fries, et al.), 532
Edema, hunger, in children (Petrides), 333
Editor's Column:
the British Medical Association plebiscite, 478
Federal aid for education in pediatrics, 626
the 1946 infant mortality rate, 764
pediatric instruction in the medical school, 225
the physician and the community, 112
pulmonary infiltrates and histoplasmin sensitivity, 226
school acceleration, 332
"Sexual behavior in the human male," 478
Education of rheumatic children, some of the problems in the (Levitt and Taran), 553
Electrocardiographic and fluoroscopic studies, and incidence of precordial systolic murmurs of heart in normal infants and children (Epstein), 39
Empyema, conference on (St. Louis Children's Hospital), 594
Enteritis, conference on acute regional (Children's Hospital, Washington, D. C.), 460
Eosinophilic granuloma of bone and Hand-Schüller-Christian disease (Love and Fashena), 46
Epilepsy, the use of benzedrine and dexedrine sulfate in the treatment of (Livingston, et al.), 490
Eruptive fever, an unusual, involving the skin and mucous membranes (Bradlow and Schless), 293
Erythroblastosis. Do erythroblastotic newborn infants destroy Rh-negative red blood cells? (Kendig), 151
fetalis in premature infant from mother with sickle cell anemia (Doyle and Annunziato), 203

Escherichia coli, septicemia due to (Daniel and Anderson), 81
Experimental serum carditis and rheumatic fever (Blattner), 757
Exsanguination transfusion in a newborn infant in 1925 (Hart), 760
Eyes of newborn infants, bacterial flora in, during first forty hours of life (Franklin), 251

F

Fibrosis of pancreas, further studies of nitrogen and fat metabolism in infants and children with (Shohl), 180
Fluoroscopic and electrocardiographic studies, and incidence of precordial systolic murmurs of heart in normal infants and children (Epstein), 39

G

Gastrointestinal tract during the first day of life, the radiographic appearance of the (Wasch and Marck), 479
Glomerular filtration rate, effective renal blood flow, and maximal tubular excretory capacity in infancy (West, et al.), 10
Goiter, congenital, causing death of a newborn infant (Kunstadter), 711
Growth, physical, of Chinese infants (Gin), 275
rate and body size of children with diabetes mellitus (Beal), 170
Red Graph and Wetzel Grid as methods of determining symmetry of status and progress during (Mann, et al.), 137

H

Hand-Schüller-Christian disease, and eosinophilic granuloma of bone (Love and Fashena), 46
Heart arrhythmias in children (Blattner), 105
in normal infants and children. Incidence of precordial systolic murmurs and fluoroscopic and electrocardiographic studies (Epstein), 39
Hemangioma of the liver causing death in a newborn infant (Hendrick), 309
Hematologic studies on children of Rh-negative women compared to those of Rh-positive women (Potter and Bernstein), 246
Hemolytic disease of newborn infant, new technique for replacement transfusion in treatment of (Arnold and Alford), 113
Hemophilia, conference on (St. Louis Children's Hospital), 599
Hepatitis, homologous serum (Sidbury and Hall), 420
Hunger edema in children (Petrides), 333
Hyperimmune gamma globulin and sulfadiazine, role of, in treatment of pertussis and pneumonia complicating pertussis (Brainerd), 30
Hyperostosis, infantile cortical (Shuman), 195

I

Icterus, congenital hemolytic, four generations (Hageage and Horgan), 288
Identification of newborn infants, silver nitrate stencil staining for (Cohen), 193
Immaturity, sublingual methyl testosterone for boyhood emotional, physical, and genital (Harding), 351
Influenza antibodies, natural incidence of, in children of different age groups (Cohen and Schneck), 154
virus vaccination, effect of, in infants and children, with antibody studies (Cohen and Schneck), 161
Intravenous administration of fat (Blattner), 324

K

Kernicterus, clinical signs and development of survivors of, due to Rh sensitization (Lande), 693
Kidneys, glomerular filtration rate, effective renal blood flow, and maximal tubular excretory capacity in infancy (West, et al.), 10
polycystic disease of the, in a newborn infant (Clark and Gipson), 718

L

Leucemia, chronic lymphoid, in children (Holowach), 84
Liver, hemangioma of, causing death in a newborn infant (Hendrick), 309
Lung. Nontuberculous pulmonary calcification (Biggs and Rigby), 393
pulmonary calcification in twins (Houston and Steiger), 706

M

Macrocheilia from labial gland hyperplasia treated by plastic surgery (McEnery and Penhale), 715
Management of the child with mental deficiency (Bakwin and Bakwin), 611
Medical Care:
treatment of the anemias of infancy and childhood (Smith), 721
treatment of common respiratory infections (Smith), 423
treatment of common skin diseases in infants and children (Niedelman), 566
Medulloblastoma, cerebellar, in a seven-month-old infant (Seiler, Jr.), 317
Megaloblastic anemia in infancy (Siebenthal), 188
Meningitis and alkaligenes fecalis bacteremia (Bischoff, et al.), 558
tuberculous, treated with streptomycin (Nau and Wenzler), 410
Mental deficiency, management of the child with (Bakwin and Bakwin), 611
Metabolism, further studies of nitrogen and fat, in infants and children with fibrosis of the pancreas (Shohl), 180

Mongolian idiocy, lack of correlation between possible Rh incompatibility and (Meyer), 564
Mortality. Pediatric deaths in a large general hospital (Platou, et al.), 380
Mucous membranes, an unusual eruptive fever involving the skin and (Bradlow and Schless), 293

N

National health service in Great Britain (Moncrieff), 753
Neuroblastoma, clinic on (St. Louis Children's Hospital), 580
Newborn infant:
bacterial flora in eyes of, during first forty hours of life (Franklin), 251
congenital goiter causing death of a (Kunstadter), 711
diarrhea of (Blattner), 220
do erythroblastotic, destroy Rh-negative red blood cells? (Kendig), 151
exsanguination transfusion in a, in 1925 (Hart), 760
hemangioma of the liver causing death in (Hendrick), 309
new concepts of osteomyelitis in the (Hutter, Jr.), 522
new technique for replacement transfusion in treatment of hemolytic disease of (Arnold and Alford), 113
polycystic disease of the kidneys in a (Clark and Gipson), 718
sclerema neonatorum (Hughes and Hammond), 676
silver nitrate stencil staining for identification of (Cohen), 193
tetanus neonatorum (Harvin, et al.), 561
News and Notes, 110, 222, 326, 475, 622, 761

O

Omphalocele (Adams), 304
Osteomyelitis in the newborn infant, new concepts of (Hutter, Jr.), 522
Overgrowth, constitutional statural, and increased lower body segment with normal sexual development in a family of four (Dorff), 670

P

Pancreatic fibrosis, further studies of nitrogen and fat metabolism in infants and children with (Shohl), 180
Penicillin, oral, prophylaxis of upper respiratory infections in children treated with (Lapin), 119
treatment in early congenital syphilis, an evaluation of the (Barker), 516
treatment of acute respiratory infections in children with orally administered, unbuffered solutions (Hoffman, et al.), 1
Pericarditis with effusion, conference on (Children's Hospital, Washington, D. C.), 449
Pertussis and pneumonia complicating pertussis, treatment of. Role of hyperimmune gamma globulin and sulfadiazine (Brainerd), 30
cerebral complications in (Litvak, et al.), 357
does it activate tuberculosis? (Toomey, et al.), 260
Petechiae in children: incidence, seasonal variations, and etiology (Brown), 55
Pneumonia complicating pertussis, treatment of pertussis and. Role of hyperimmune gamma globulin and sulfadiazine (Brainerd), 30
Poisoning, clinic on (Duke Hospital), 207
Polycystic disease of the kidneys in a newborn infant (Clark and Gipson), 718
Polyostotic fibrous dysplasia, clinic on (Children's Hospital of Michigan), 91
Proctology. The proctologic examination of infants and children (Schapiro), 543
Psychologic Aspects of Pediatrics:
accident proneness (Bakwin and Bakwin), 749
benzedrine in behavior disorders of children (Bakwin), 215
the child with asthma (Bakwin and Bakwin), 320
management of the child with mental deficiency (Bakwin and Bakwin), 611
specific reading disability (Bakwin and Bakwin), 465
thumb- and finger-sucking in children (Bakwin), 99
Psychology. Adjustment of parents to children in the home (Berman), 66

R

Race, relationship of, to the incidence of diphtheria and to Schick, tuberculin, and Wassermann tests in hospitalized children (Martin and Arena), 530
Radiographic appearance of the gastrointestinal tract during the first day of life (Wasch and Marck), 479
Reading disability, specific (Bakwin and Bakwin), 465
Receding chin and glossoptosis. A cause of respiratory difficulty in the infant (Nisenson), 397
Red Graph and Wetzel Grid as methods of determining symmetry of status and progress during growth (Mann, et al.), 137
method: a substitute for skeletal age (Todd) for clinical use (Pyle, et al.), 125
Renal blood flow, effective, glomerular filtration rate, and maximal tubular excretory capacity in infancy (West, et al.), 10
Respiratory acidosis and alkalosis in children (Spector and McKhann), 227
infections, treatment of acute, in children, with orally administered, unbuffered penicillin solutions (Hoffman, et al.), 1

Respiratory infections—Cont'd
treatment of common (Smith), 423
upper, prophylaxis of, in children treated with oral penicillin (Lapin), 119
Rh incompatibility, possible, and Mongolian idiocy, lack of correlation between (Meyer), 564
sensitization, clinical signs and development of survivors of kernicterus due to (Lande), 693
Rheumatic children, some of the problems in the education of (Levitt and Taran), 553
fever, experimental serum carditis and (Blattner), 757
Ritter's disease, clinic on (Children's Hospital of Michigan), 95

S

Scleredema neonatorum (Hughes and Hammond), 676
Sclerosis, tuberous, conference on (St. Louis Children's Hospital), 589
Septicemia due to Escherichia coli (Daniel and Anderson), 81
Serum gamma globulin antibodies, use of, to control chicken pox in a convalescent hospital for children (Funkhouser), 257
Sexual development, normal, constitutional statural overgrowth and increased lower body segment with, in a family of four (Dorff), 670
Skeletal age (Todd), a substitute for, for clinical use: the Red Graph method (Pyle, et al.), 125
Skin and mucous membranes, an unusual eruptive fever involving the (Bradlow and Schless), 293
diseases in infants and children, treatment of common (Niedelman), 566
Social Aspects of Medicine:
British medical situation, 217
national health service in Great Britain (Moncrieff), 753
responsibility of pediatrician in community health program (Thelander), 102
Stenosis, congenital hypertrophic, of the duodenum (Patton), 301
Streptomycin (Blattner), 619
tuberculous meningitis treated with (Nau and Wenzler), 410
Subluxation of the head of the radius—"nursemaid's elbow" (Boyette and London, Jr.), 278
Sulfadiazine, role of hyperimmune gamma globulin and, in treatment of pertussis and pneumonia complicating pertussis (Brainerd), 30
Syphilis, an evaluation of the penicillin treatment in early congenital (Barker), 516
Systolic murmurs, incidence of precordial, and fluoroscopic and electrocardiographic studies, of heart in normal infants and children (Epstein), 39

T

Testis, torsion of the appendix (Coppridge and Roberts), 184
Testosterone, sublingual methyl, for boyhood emotional, physical, and genital immaturity (Harding), 351
Tetanus neonatorum (Harvin, et al.), 561
Thumb- and finger-sucking in children (Bakwin), 99
Tonsillectomy, amelioration of diabetes insipidus following (Winter), 78
Transfusion, new technique for replacement, in treatment of hemolytic disease of newborn infant (Arnold and Alford), 113
exsanguination, in a newborn infant in 1925 (Hart), 760
Tuberculin, Schick, and Wassermann tests in hospitalized children, relationship of race to the incidence of diphtheria and to (Martin and Arena), 530
Tuberculosis, congenital (Harris, et al.), 311
does pertussis activate? (Toomey, et al.), 260
Tuberculous meningitis treated with streptomycin (Nau and Wenzler), 410
Tubular excretory capacity, maximal, glomerular filtration rate, effective renal blood flow, in infancy (West, et al.), 10

V

Vaccination, influenza virus, effect of, in infants and children, with antibody studies (Cohen and Schneck), 161
Vaccinia virus complicating atopic eczema, varicelliform eruption of Kaposi due to (Fries, et al.), 532

W

Wassermann, Schick, and tuberculin tests in hospitalized children, relationship of race to the incidence of diphtheria and to (Martin and Arena), 530
Wetzel Grid and Red Graph as methods of determining symmetry of status and progress during growth (Mann, et al.), 137
